Bayview Construction completes high-tech veterinary clinic in Stuart

Animal Health and Healing Center offers full service medical, surgical, dental and holistic care

STUART, FL (August 5, 2008) – Bayview Construction representatives joined with veterinarian and Stuart resident, Gary Zinderman, and his family and staff to officially open Dr. Zinderman's new state-of-the-art veterinary clinic, Animal Health and Healing Center. The facility is located at 1233 SE Indian Street in the Sawgrass Business Center in Stuart

Offering an inviting 2,800 square foot open floor plan for pets and their owners, Animal Health and Healing Center boasts a large high-ceiling lobby area, surgical room with a viewing window, high-tech digital X-ray room, private treatment rooms, cat condos for exclusive cat boarding, and two automated pet lifts. All laboratory tests are performed in-house for quick and reliable results.

Dr. Zinderman provides compassionate, high quality veterinary care for dogs, cats, small animals and horses, and specializes in allergy and dermatology, dentistry and oral surgery, pain management, stem cell therapy and hospice care. To maximize results, he employs the use of integrative Western and Eastern veterinary medicine. He also makes house calls.

“The completion of this facility is truly a lifelong dream come true,” said Dr. Zinderman. “I’m fortunate to be one of the few people who can honestly say that they absolutely love their job. The new facility will enable me to provide compassionate and state-of-the-art health care for animals. This dream wouldn’t have been realized without the help and support of my wife, Melissa, and sons Ben and Zac.”

Zinderman earned his doctor of veterinary medicine degree from the University of Florida, a bachelor's degree in biological science from Florida Atlantic University, and is a certified veterinary acupuncturist. He volunteers at the Treasure Coast Humane Society and is an assistant coach with the Port Salerno Little League. Zinderman and his wife, Melissa, have two children, as well as a Chocolate Labrador Retriever and a Mexican Milk snake. Previously, he owned, managed and operated Juno Beach Animal Hospital.

Bayview Construction served as the general contractor for the interior construction and finishing work.

“This is a truly impressive facility,” said Ken Ringe, president of Bayview Construction. “Dr. Zinderman’s dedication to his patients and profession is obvious through his commitment to quality and attention to detail during the construction of Animal Health and Healing Center.”

“I chose Bayview Construction mainly on their reputation,” said Dr. Zinderman. “I met with Ken Ringe when I was looking at other spaces. He put me at ease, took the time to meet me at different sites and I knew right away, Bayview Construction was the builder for me.”

Bayview, headquartered in Stuart, is a certified state-licensed general contractor. A national award-winning company and a Builder of the Year award recipient by the Treasure Coast Builders Association (TCBA), Bayview celebrates its 30th anniversary this year.
