Bayview Construction wins industry award

Builder honored by peers for Old Florida rustic themed restaurant.

STUART, FL (October 30, 2009)—Bayview Construction Corporation took top honors in the 7th Annual Medallion Awards, a competition created by the Treasure Coast Builders Association to recognize and honor excellence within the building industry. Bayview received a Gold Medallion in the Commercial division for Charlie's Neighborhood Bar and Grill.

Entries in the division were judged by building industry professionals from other areas of Florida, who scored entries on overall architectural design, floor plan function and design, curb appeal, innovativeness and appeal to target market. A minimum score criteria was used to qualify finalists. Only projects completed during the 12 month period between July 1, 2007 to June 30, 2008 in Martin, St. Lucie, Indian River and Okeechobee counties were eligible.

Charlie's Neighborhood Bar and Grill, a 7,000 square-foot restaurant in Stuart, Florida, built in the classic style of Old Florida, features pine siding, an expansive outdoor-covered terrace dining area that overlooks a wetland preserve, deep shade porches, and a metal roof.

Judges complimented the finish carpentry work and noted the restaurant was a great example of Old Florida rustic architecture.

"Our client knew what he wanted. Ahern & Associates Architects put it on paper. We just helped bring the vision to life," said Jon Stetson, project manager for the project and superintendent for Bayview Construction.

This is the ninth Gold Medallion Award Bayview Construction has received.

Bayview Construction, headquartered in Stuart, is a certified state-licensed general contractor. Bayview has been in business for 31 years, is a national award-winning company, and a Treasure Coast Builders Association (TCBA) Builder of the Year award recipient.
