**Bayview Construction secures expansion contract for East Coast Migrant Head Start Project in Indiantown**

**Stuart, Fla. (September 9, 2010)** – East Coast Migrant Head Start Project (ECMHSP) has awarded Stuart based Bayview Construction a \$467,000 contract for demolition of an existing building and site improvements, which include the addition of sidewalks, a covered deck and ramps, and interior finish for four new 8,500 square foot modular buildings.

The project, located at 16489 S.W. Farm Road in Indiantown, should be completed in October. The modular buildings will provide classrooms and day care facilities for approximately 98 children.

Ken Ringe, president of Bayview Construction said, “We’re honored to have a part in this project, which will help extend ECMHSP services to migrant farm worker families in western Martin County.”

Ted Hoffman is the architect of record for the project.

ECMHSP is committed to preparing the young children of migrant and seasonal farm workers for educational success by providing holistic, high quality early childhood services in a nurturing, culturally sensitive environment. A private, non-profit agency whose work is supported by funds provided by the United States Department of Health and Human Services, the ECMHSP serves children ages six weeks to age five whose families qualify based on federal income guidelines and federal definitions of migrant and seasonal farm workers. For more information on ECMHSP, visit <http://www.ecmhsp.org>.

**ABOUT BAYVIEW CONSTRUCTION:** Bayview Construction, headquartered in Stuart, is a certified state-licensed general contractor.
