Bayview Construction becomes authorized Star Builder installer

STUART, FL (December 13, 2010) – Ken Ringe, president of Bayview Construction Corporation, announced today that Bayview Construction has become an authorized builder for Star Building Systems, a leading manufacturer of custom designed metal building systems for commercial, industrial, institutional and agricultural use.

“Our customers have varied needs and budgets. This partnership with Star allows us to offer Bayview customers in Martin and St. Lucie counties a variety of building solutions,” said Ringe.

Metal building systems have proven to cut weeks off of construction time, saving both time and money. Star Building Systems offer column-free interior space, are termite resistant and are produced with 99% recyclable materials. Star structures also offer energy efficiency and can be designed to allow future expandability as a business grows.

Star Building Systems, an NCI company, is a leading supplier of custom-designed metal buildings. Founded in 1927, the company serves non-residential, commercial, industrial, recreational, agricultural and retrofit markets both nationally and internationally. Star’s plants are located in California, Iowa and Tennessee, and produce an integrated product line. Over 1,000 design/build contractors are authorized Star Builders.

Bayview Construction also is an authorized builder for American Buildings Company, the largest steel manufacturer and recycler of steel in North America.

Bayview Construction, headquartered in Stuart, Florida is a certified state-licensed general contractor. A national award-winning company in construction and safety, and a Treasure Coast Builders Association Builder (TCBA) of the Year award recipient, Bayview has been in operation for more than 32 years. For more information on the company and its capabilities, visit www.bayviewconstruction.com.
