**Bayview Construction wins Grand Aurora Awards**

STUART, FL (August 12, 2011) – Stuart-based Bayview Construction Corporation has received one of the home building industry’s highest industry honors winning two Aurora Awards in the 2011 Aurora Awards design and building competition held during the 33<sup>rd</sup> Southeast Building Conference (SEBC) in Orlando.

Bayview earned top points and Best in Category in the Detached Single-Family Home, \$2,000,001 to \$3,000,000 category for a 6,794-square-foot luxury home built in Stuart, resulting in the win of an Aurora and a Grand Aurora Award. The two awards were accepted by Ken Ringe, company president, and Vickie Ringe, company vice president, at a black-tie gala marking the end of the conference.

The single-family, waterfront, two-story residence, built for a client who desired an unpretentious, easy-to-care-for and sustainable home, blended a design of contemporary architecture with an infusion of nautical and Asian influence. Featuring renewable wood sources, energy-rated appliances, commercial grade appointments, and extensive use of natural light, energy-saving and sustainable features include an 1,800 gallon underground cistern, gas powered backup generator, LED lighting, a flat precast autoclaved aerated concrete roof to provide strength and insulation, insulated windows and doors, and bronze glazed windows.

Bayview Construction Corporation partnered with the architectural firm of Raul Ocampo and Associates, LLC, and interior design group Interior Solutions, Inc. to complete the Stuart residence.

The national awards program honor builders, planners, architects, developers, designers, interior merchandisers, and other housing-related professionals in a 12-state region stretching from Texas to Virginia, plus the Eastern Caribbean.

This is the third Stuart project Bayview has captured Aurora awards for; the other two are The Courtyard by Marriott-Stuart and The Esplanade at Downtown Stuart.

Bayview Construction, headquartered in Stuart, Florida, is a general contracting firm, which is engaged in commercial and residential construction and remodeling. In business for over 33 years, Bayview has received national awards and recognition for an array of construction projects including hotel facilities, restaurants, single-family homes and estates, multi-family and mixed-use structures, and government facilities, as well as for the company's safety record and safety standards and procedures.
