We are pleased to recommend Bayview Construction Corp. as a general contractor.

Bayview was the contractor for our new 4,200 square foot urgent care facility at Kanner Crossing in Stuart.

This facility includes a full-service laboratory, protected x-ray room, numerous examination and treatment rooms, four offices, two separate reception areas and several bathrooms.

The quality of the work done by Bayview on this project is apparent in the reaction of both staff and patients alike, who all are impressed with our new surroundings.

Yours truly,

A handwritten signature in black ink, appearing to read "David Friedman", with a long horizontal flourish extending to the right.

David Friedman
Director of Operations
Medstat Urgent Care Centers PL
