

EXECUTIVE YACHT B R O K E R A G E I N C.

Our company found Bayview Construction Corporation to provide excellent design ideas and high quality construction work for our project. They provided the Architect and worked extensively with him in implementing a design that met our design and budget expectations.

We are very pleased with the quality of the work that was completed and, just as importantly, their willingness to cooperate in achieving the common goal of opening our building for business. I found that their concern for this project equaled ours and ultimately together we achieved our goal. They have been reliable and dependable in completing the project to our expectations.

We especially enjoyed working with Jim Hill the Project Manager and Jim Bell, the Field Superintendent on the job. Their attention to detail is outstanding and they were always responsive to our needs and requests. I would highly recommend their services to others for any design and build construction projects.

Thank you.

Sincerely,

Debbie Holmes
